Dear Senator John McCain,
Please consider Solar and Wind Power energy grants to Benson, Arizona land owners to help them offset electricity price increases proposed by Sulphur Springs Valley Electrical Cooperative of which I am a participant in Cochise County. Please donate solar panels and wind towers for use of my household so we can survive this economic energy costs we face. So we can survive in this economy. I love the US and our Government, God Bless the Department of the Interior and The Department of Energy and all their help and planning for the future of our children in Benson, Arizona. Tell President George Bush that America is behind him all the way.
