I suggest that any solar that are built on the Night Ranch Road, near the Jean Dry Lake Bed, first of all , be built next to the Solar Farm in the Eldorado Dry Lake Bed between Boulder City and Searchlight. Also, any solar farms that are built needs to allow for the same amount of acreage taken away to be opened specifically for OHV use. When and where does the closing down of public lands end. This is nevada, the last true frontier in the US. Let's keep it that way instead of closing off so many sqaure miles of land for excuses such as "Wilderness Study Area", and "projects" such as Sloan Canyon and such.
