feel that closing this area to OHV use is completely unfair. Land available to the OHV enthusiast is being taken away fast, leaving us with no local areas to use. There is enough land that is already closed to us that you can use. These land closures are getting out of hand. I have been a life long resident of Las Vegas and it seems all the good spots for off road use have been sold by the BLM to put houses. I understand that Solar energy is A great energy resource but why close areas of public use to build things that will be a permanent source a damage to the desert.
