Comment Submitted:

It is being proposed by the Solar Energy Industry to install panels on Knight Ranch road where our pit area is. They are wanting to shutdown approx. 6000 acres in this valley. This will completely close down OHV use in this area. In addition to this proposal they are proposing to close off approx. 280,000 acres throughout the Las Vegas District.

We have until Tuesday July 15 to place public comments and try and stop this from happening. I went to the BLM office yesterday and found out this information. I strongly suggest and insist that ALL MRAN members submit a comment objecting to this proposal and request that if this area is closed the BLM be required to reestablish and equal size area with the same miles of trails in another area in their district within close proximity to Las Vegas. This new area would be in addition to any remaining OHV areas (Nellis Dunes).
