I am opposed to the proposal to close the Jean, Nevada dry lake bed area to OHV uses in order to install solar power pannels in that location. I am not opposed to solar power, but this area is actively used by riders from Las Vegas who cannot ride within the Las Vegas Valley. In addition, local race clubs use this area to stage many races throughout the year. The proposal to close this area to OHV activity will have a big impact to the OHV community in Las Vegas because we have already been kicked out of so many of our "usual" riding areas.
