I'm against a land closure in the PRIMM area due to solar use. This closure would impact an already devastated economy. There are 5 sanctioning bodies that utilize the land proposed for the solar plant to hold sanctioned events on. These events bolster not only the local Vegas economy, but as many participants come from the California and Arizona areas to enjoy the desert in the Jean/Primm area in this arena, if it is closed to OHV use, it would greatly impact all of the businesses that are tied to our sport. It is a ripple effect and one that I just can't see justified. You must give our families a place to recreate and this place needs to stay as the Jean/Primm area.
