I attended the public meeting in San Luis Obispo, CA, on 7/9/08 and am a resident of SLO county. I do not support any solar energy developments in the National Monument at Carrizo Plains or lands surrounding it. The existing cultural and historic resources must be preserved. It is also surprising to create new energy systems so close to the San Andreas Fault as well as degrading viable agricultural land. From the meeting I learned that new solar energy concepts will render those shown to us obsolete.
