Solar Energy Development PEIS

Although I do believe in alternative energy ventures, I would like to mark my opposition to this particular project, only as far as the impact to the off-roading community. We in offroad racing have limited resources and this proposed plan will greatly damage a long held american tradition of enjoying the desert.

I would suggest moving this solar farm to a different location that would not impact recreation, there should be plenty of places in the desert areas where people do not recreate.
